

Multi Metal Coating

One of the most trusted product by industries and classic car enthusiast for rust treatments for over 38 years. FERTAN products have been bestselling rust removers, coatings and primers in Germany and several other European countries for several years now.

FERTAN® MULTI-METAL COATING provides long-term corrosion protection by creating a high-grade surface finish that is oil resistant. FERTAN MULTI-METAL COATING has an outstanding and unique bonding ability with steel, aluminum, and copper, and offers excellent adhesion with commercial lacquers and paints.

Multi Metal Coating with Aluminium-Titan-Zinc cathodically long-term corrosion protection. After curing extremely resistant and high grade surface finish. Very good bonding for steel, aluminum and copper. Perfect adhesion for 1 or 2 part commercial lacquers and paints. Spot welding possible.

Can be used as a final coating/treatment

Long-term option

Temperature resistant up to 572°F
